SDC HACKATHON 2026

Proof of Use - Replit

Team Empathy Coders | OrderPilot | SDC Hackathon 2026 - Domain 2

What this document must prove

The organisers verify that the team used Replit on its own account. Live deployment URL: https://order-pilot--microtopt.replit.app. Include at least one of: the live deployment URL, the Replit project link with project history, or a screenshot of finished Replit credit. The screenshots below cover all three.

How to complete this template

- Open the team's Replit account and the OrderPilot project.
- Capture the project page with the account name, project name and file list visible.
- Capture the Deployment page with the deployment status and public URL visible.
- Capture the project history or the Replit credits/billing usage page.
- Replace each dashed box below with the screenshot. Do not include any API key or secret value.
- Export the completed document as a PDF and keep the file name SDC2026_EmpathyCoders_ReplitProof.pdf.

Screenshot 1 - Replit project page (account + project name + files)

Insert a screenshot from the team's own Replit account. The account name, project name and the relevant page must be visible. Do not show API key values.

Paste screenshot here

Screenshot 2 - Replit Deployment page (status + public URL)

Insert a screenshot from the team's own Replit account. The account name, project name and the relevant page must be visible. Do not show API key values.

Paste screenshot here

Screenshot 3 - Project history or Replit credits usage

Insert a screenshot from the team's own Replit account. The account name, project name and the relevant page must be visible. Do not show API key values.

Paste screenshot here

Verification checklist

[ ] The Replit account belongs to a team member.

[ ] The project name OrderPilot is visible.

[ ] The deployment URL is visible and opens in an incognito window.

[ ] The project history or credit usage is visible.

[ ] No API key, password or token is visible in any screenshot.

Declaration

The screenshots in this document are from the team's own Replit account and show the OrderPilot project used for the SDC Hackathon 2026 submission. No third-party account or project is represented as the team's own.

Signature: _____ **Date:** 21 October 2026

Name: Yang Jiahui (Team Leader) **Team:** Empathy Coders

This is a template until the three screenshots are inserted. Replace the dashed boxes before submitting.
